DETAILED ACTION

Election/Restrictions

1. Applicant's election without traverse of group I, claims 1-25, in Paper No. 9 is acknowledged. It is noted that, although both the restriction requirement and the election stated claims 1-24 as being part of group I and claims 26-29 as being part of group II, with claim 25 being inadvertently left out, since claim 25 depends upon claim 2 and is drawn to group I, it is assumed that applicant meant to elect to prosecute claim 25 as well as claims 1-24.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-25 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Gerhold et al (IEEE Journal of Quantum Electronics, March 1998 article). Gerhold et al clearly discloses the claimed invention. Note figure 1 which illustrates an optically pumped surface emitting semiconductor laser device.
